

To any future Bride & Groom,

My husband and I HIGHLY recommend DJ Lisa - she is going to be one of the best decisions you will make for your wedding. She is extremely professional, organized, and thoughtful about the groom and bride's needs and preferences. DJ Lisa was undoubtably our best vendor and a huge contributor to the success of our wedding. She EXCEEDED our expectations. We feel that we were so lucky to have met DJ Lisa at a wedding show. Things were looking kind of grim in terms of the selection of DJs out there. Our wedding was going to be classy and we didn't want to hire one of those slimy DJs who would treat our wedding like a HS prom. As you probably have figured it by now, DJ Lisa doesn't fit the typical stereotype of DJs.

We are very busy people and Lisa proactively reached out to us several months before the wedding. She made the entire process easy for us from beginning to end --

1. Pre-Meeting: Lisa met with us several hours to go over the music list and in particular, to make sure we had the detailed schedule of activities for the ceremony and reception nailed down to the minute. She asked detailed questions, making sure that she understood what we wanted as well as any unique religious and cultural aspects that were to be included in the wedding program. Her sensitivity to our Buddhist ceremony was much appreciated. Lisa provided many suggestions to help us make key decisions.
2. Website -Music Selection: Check out her website for the couple to select their music. It's awesome, easy to use and navigate. The tools are very slick!
3. Project Management: She would send us friendly reminders for the action items that we were responsible for. She put our entire schedule together, with detailed notes to ensure that we didn't forget anything.
4. Rehearsal: As part of her services, she came to our rehearsal at the Resort and help facilitated the "dry run" with the wedding party. DJ Lisa was so helpful in getting the wedding party organized, especially since we had to incorporate a Buddhist ceremony into the parameters of the wedding site.
5. Ceremony: She did a fantastic job working with our Vietnamese translator as the co-MC. It went very well.
6. Reception: DJ Lisa checked with us throughout the reception, made sure we stuck by the program and even brought us some wine in between songs! Everything was perfect.
7. Photo Montage: We also had DJ Lisa do the photo montage for us. We recommend you

consider this additional service. It's such a nice treat for the guests and DJ Lisa did a good job. It turned out very sweet with our selected songs.

8. PEACE OF MIND: With DJ Lisa, you get peace of mind, knowing that she will take care of things that she is responsible for. Trust us, you will have many other things to worry about. :)

Hope this feedback is helpful. Good luck and have fun with your wedding planning!

Mimi & Jon Farr
